

Tutor training and teacher courses

Teaching young children in English in multilingual contexts

Teaching ESL students in mainstream classrooms:
Language in learning across the curriculum

Literacy for learning:
Australian Edition

How language works:
Success in literacy and learning

Train the trainer model

Tutor Training

- The Tutor Training is an intensive program that covers the content of the Teacher Course and also develops tutor skills and knowledge. It is delivered at training venues around the world to small groups of up to 15 teachers.

Teacher Course

- Licensed tutors then deliver the Teacher Course, providing their school with cost-effective, school-managed professional development. The course incorporates group workshops, classroom-based activities and highly practical readings. It provides teachers from across the curriculum with successful classroom strategies for improving the learning achievements of all their students.

STEP 1

Choose a Tutor
Training

STEP 2

Enrol in the Tutor
Training

STEP 3

Attend the Tutor
Training to become a
licensed tutor

STEP 4

Purchase manuals for
the Teacher Course

STEP 5

Deliver Teacher
Course to your
colleagues

TYCEMC & TESMC

Both courses support teachers in the provision of an explicit language-based pedagogy with particular reference to EAL/D students in **mainstream classrooms**. They both address the need for an explicit language pedagogy across the curriculum.

- TYCEMC – **Teaching Young Children in English in multilingual contexts** is aimed at mainstream teachers and EAL/D teachers of EAL/D students in prep – year 3.
- TESMC – **Teaching ESL students in mainstream classrooms** is aimed at mainstream and EAL/D teachers of EAL/D students in year 4 – 12.

LfL and HLW

Both courses address the explicit teaching of language and literacy across all areas of the curriculum for students from year 4 – 12.

- **LfL – Literacy for learning** is aimed at teachers of all subjects. It addresses the relationship between an explicit language-based pedagogy and successful learning.
- **HLW – How language works** is a comprehensive program for educators who want to extend their knowledge about language and literacy.

Evidence

- Report on the implementation of the Literacy for learning course – *Evaluation of the whole-school implementation of a language-based pedagogy at Southern Secondary College.*
- *Case Study: The successful whole-school implementation of the TESMC course at Yeronga State High School.*
